

F. E. WARREN AIR FORCE BASE ENVIRONMENTAL COMMITMENT STATEMENT

PRIMARY EMS GOALS

Be a leader in USAF Cultural Resources Management by ensuring the continued preservation of the Fort D. A. Russell National Historic Landmark District.

In support of DoD and USAF policy, FEW shall be a leader in water conservation in order to reduce costs and ensure access to an clean water for mission success.

FEW shall improve facility energy efficiency in concert with broader USAF strategic efforts to strengthen energy resilience and energy security.

FEW shall explore all options to pursue the use of renewable energy to lower greenhouse gas emissions, reduce dependence on fossil fuels and enhance our military readiness.

The 90th MW is dedicated to protect the environment while fulfilling its mission to “Defend America with the world’s premier combat-ready ICBM force.” Every military member, civilian and contract employee on the base shall actively implement the EMS IAW AFI 32-7001, AFPD 90-8 and all other relevant policies, laws, and regulations. To ensure success of the EMS FEW shall:

- Communicate environmental commitment to all FEW personnel, including contractors and tenant organizations.
- Integrate environmental compliance/planning with the 90 MW mission at all levels of management and decision-making.
- Reduce waste generation and prevent pollution via innovation, effective facility management, and sound procurement practices
- Promote conservation and sustainable management of FEW lands, natural and built infrastructure, and cultural resources.
- Maximize participation in the Cross Functional Team (CFT) by those organizations outlined in the 90MW/CC Memorandum Cross Functional Team Membership at FEW Environmental Management System

The FEW Environmental, Safety & Occupational Health Council hereby appoints the 90 MSG/CD the Chair of the CFT, the EMS Coordinator Position resides in 90 CES/CEIEC. Questions, contact the FEW Environmental Office, 90 CES/CEIE, at (307)773-6607

Approved by the 90MW ESOHC 28 September 2021
