

PUBLIC SCOPING NOTICE
FOR
THE CONSTRUCTION OF AN AQUATIC PARK
AT
F. E. WARREN AIR FORCE BASE, CHEYENNE WYOMING

F.E. Warren Air Force Base (FEW) is soliciting public input as part of the public scoping process for the Environmental Impact Analysis Process (EIAP) to satisfy the U.S. Air Force's legal obligation under the National Environmental Policy Act (NEPA). Public input will determine the scope of issues to be addressed and to help identify significant environmental issues to be analyzed in depth for the proposed construction of an aquatic splash park on the main cantonment area of the installation.

Under the Proposed Action, FEW will construct an aquatic park at the former site of the FEW Golf Course. The proposed aquatic park will feature a number of aquatic features, seating area, picnic shelters and other landscaping. Additional infrastructure will also be constructed including the addition of sanitary sewer lines, water lines, electrical lines and a recirculation tank. The proposed location is adjacent to the former FEW Golf Course Club House.

FEW determined that the proposed action requires the completion of an Environmental Assessment (EA). The EA will analyze all significant environmental actions to determine if the proposed action constitutes a major federal action significantly affecting the quality of the human environment and supports a Finding of No Significant Impact (FONSI). The proposed action is subject to the Clean Water Act Sections 401, 404 and 404(b)(1) guidelines, and the requirements and objectives of EO 11990, Protection of Wetlands. The proposed action is subject to review by or under the jurisdiction of the Wyoming State Historic Preservation Office, the U.S. Department of Fish and Wildlife and the U.S. Army Corps of Engineers Wyoming Regulatory Office. FEW will solicit comments from each of these agencies and other interested parties as appropriate.

Documents related to the proposed action are available at <https://www.warren.af.mil/> or you may request copies directly from Mr. Travis Beckwith, NEPA Program Manager at the address below. Please direct all comments and/or questions to:
