

**DEPARTMENT OF THE AIR FORCE  
90TH MISSILE WING (AFGSC)**

MEMORANDUM FOR DISTRIBUTION

FROM: 90 MW/CC

SUBJECT: DRAFT Finding of No Significant Impact for the proposed rehabilitation of Building 347 at F. E. Warren Air Force Base, Cheyenne, Wyoming

1. F. E. Warren Air Force Base (FEW) proposes to rehabilitate Building 347 FEW, Cheyenne, Wyoming.
2. Pursuant to 40 CFR §1508.13 and 32 CFR §989 *Air Force Environmental Impact Analysis Process*, Federal Agencies shall complete an Environmental Assessment (EA) and, if appropriate, document that the action will not have a significant effect on the environment through a Finding of No Significant Impact (FONSI). FEW completed an EA for the proposed action. The EA, attached and incorporated by reference, included a complete description of the proposed action, alternatives considered and any anticipated environmental effects.
3. I conclude that the proposed action does not constitute a major federal action significantly affecting the quality of the human environment when considered individually or cumulatively in the context of the referenced act, including both direct and indirect impacts. Therefore, an Environmental Impact Statement (EIS) is not required. My decision to approve the proposed action is based upon the following:
  - a. The rehabilitation of Building 347 is essential to meeting mission readiness goals.
  - b. On XX-XXX-XX, the Wyoming State Historic Preservation Office, the National Park Service and the Advisory Council on Historic Preservation entered into a Memorandum of Agreement mitigating the adverse effects to Building 347.
4. The point of contact for this EA is Mr. Travis Beckwith, NEPA Coordinator. He can be reached at (307) 773-3667 or via e-mail at [travis.beckwith@us.af.mil](mailto:travis.beckwith@us.af.mil).

Stacy Jo Huser, Colonel, USAF  
Commander

MEMORANDUM FOR DISTRIBUTION

FROM: 90 MW/CC

SUBJECT: DRAFT Final Finding of No Significant Impact for the proposed installation of a net around the 18th fairway of the golf course at F. E. Warren Air Force Base, Cheyenne, Wyoming

1. F. E. Warren Air Force Base (FEW) proposes to install a net along the 18th fairway of the golf course located on FEW, Cheyenne, Wyoming.
2. Pursuant to 40 CFR §1508.13 and 32 CFR §989 *Air Force Environmental Impact Analysis Process*, Federal Agencies shall complete an Environmental Assessment (EA) and, if appropriate, document that the action will not have a significant effect on the environment through a Finding of No Significant Impact (FONSI). FEW completed an EA for the proposed action. The EA, attached and incorporated by reference, included a complete description of the proposed action, alternatives considered and any anticipated environmental effects.
3. I conclude that the proposed action does not constitute a major federal action significantly affecting the quality of the human environment when considered individually or cumulatively in the context of the referenced act, including both direct and indirect impacts. Therefore, an Environmental Impact Statement (EIS) is not required. My decision to approve the proposed action is based upon the following:
  - a. On XX-XXX-XX, the Wyoming State Historic Preservation Office and the National Park Service entered into a Memorandum of Agreement mitigating the adverse effects to the Fort D. A Russell National Historic Landmark District.
  - b. Temporary installation of the net will protect housing residents until vegetation can be established to replace the lost vegetation that previously provided a natural barrier.
4. The point of contact for this EA is Mr. Travis Beckwith, NEPA Coordinator. He can be reached at (307) 773-3667 or via e-mail at [travis.beckwith@us.af.mil](mailto:travis.beckwith@us.af.mil).
