

**DEPARTMENT OF THE AIR FORCE**  
**90TH MISSILE WING (AFGSC)**

MEMORANDUM FOR DISTRIBUTION A

FROM: 90 MW/CC

SUBJECT: Final Finding of No Significant Impact for the proposed construction for the Weapons Storage and Maintenance Facility (WSMF) at F. E. Warren Air Force Base, Cheyenne, Wyoming

1. F. E. Warren Air Force Base (FEW) proposes to construct a WSMF at FEW, Cheyenne, Wyoming.
2. Pursuant to 40 CFR §1508.13 and 32 CFR §989 *Air Force Environmental Impact Analysis Process*, Federal Agencies shall complete an Environmental Assessment (EA) and, if appropriate, document that the action will not have a significant effect on the environment through a Finding of No Significant Impact (FONSI). FEW completed an EA for the proposed action. The EA, attached and incorporated by reference, included a complete description of the proposed action, alternatives considered and any anticipated environmental effects.
3. I conclude that the proposed action does not constitute a major federal action significantly affecting the quality of the human environment when considered individually or cumulatively in the context of the referenced act, including both direct and indirect impacts. Therefore, an Environmental Impact Statement (EIS) is not required. My decision to approve the proposed action is based upon the following:
  - a. The construction of the WSMF is essential to meeting mission requirements.
  - b. The WSMF will increase the level of safety and security for U.S. Air Force Assets.
  - c. On 15 October 2014, the Wyoming State Historic Preservation concurred with FEW that the proposed action would have no effect to historic properties.
  - d. On 21 August 2014, the U. S. Fish and Wildlife Service issued no objections to our finding that no endangered species would be affected.
4. The point of contact for this EA is Mr. Travis Beckwith, NEPA Coordinator. He can be reached at (307) 773-3667 or via e-mail at [travis.beckwith@us.af.mil](mailto:travis.beckwith@us.af.mil).

STEPHEN M. KRAVITSKY, Colonel, USAF  
Commander
